Technical Information Chain Spray

presto Chain Spray provides a unique combination for long-lasting lubrication for all chain-driven means of transportation and equipment. The lubricant is very adhesive and is therefore suitable for fast moving and heavy-duty chains such as the one in (cross) engines. In addition it is dilatant (opposite to thixotropic) and therefore prevents the oil dripping from the chain even when moving at high speed.

For use on:
For all types of chain drives such as bicycles, motorbikes, mopeds, farm machines, in ships, car repair workshops or maintenance workshops.
