

Technical Information Model Paint Polyurethane Clear Lacquer

Model Paint Polyurethane Clear Coat is a special high gloss clear lacquer particularly resistant to fuels used in motorised models (aircraft, cars, ships). For application on many different surfaces - wood, metal, paper, glass, stone, coatable plastics (not polystyrene) or on existing paints which may not be sufficiently resistant to fuel (there might be a slight effect on the original colour by the clear lacquer's own colour).

For priming plastic parts on models, we recommend [Model Paint Plastic Primer art.no. 685255](#).

Color	Product	Bundle	Art.No.
	Model Paint PU clear coat 150	150 ml	685279

Disclaimer of liability

This application-technological information is given to the best of our knowledge. The notes mentioned herein are, however, non-binding and do not exempt you from own tests to see whether the products supplied by us are suitable for your special application. The use and processing is beyond our control and therefore exclusively in the responsibility of the user. MOTIP DUPLI is let off the liability, unless the liability-based incident is caused by a fault incurred to MOTIP DUPLI.

For any further technical questions call our hotline +49 (0) 62 66 75-266 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of January 7, 2010

This release replaces all eventually earlier issued versions.
