Technical Information RAL Lacquer

This is a high-quality fast-drying acrylic lacquer system with excellent coverage in RAL standard colours.

Colour-exact lacquers and lacquer repairs to small areas available in high-gloss, semi-matt or matt colours for industrial and professional users.

For use on treated and untreated wood, metal, aluminium, glass, stone and various plastic surfaces.

We recommend pre-treating galvanised and untreated steel with MoTip Industrial Zinc Spray or MoTip Industrial Alu Zinc Spray.
