Technical Information Putty for Metal "styrene-free"

presto Putty for metal "styrene-free" is a 2-component polyester metal putty with different eco-friendly fillers and aluminium pigments.

Applicable as body filler in the field of car repair, engineering and hobby. Anywhere, where an extensive spread is desired. Subsurfaces like metal, wood, different plastics or concrete can be filled easily in the required number of coats. Holes will be filled and levelled, thin coats will be stabilised.
