5 years if appropriate storage provided (=10°-25°C, relative air humidity of max. 60%)
Do not store below 5°C
- **Size:** 10 ml pencils

Environment and labelling

Environmentally sound: European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal: Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling: All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

Using instructions

Before use, carefully read and observe the warning texts on the label!

- Shake the marker without removing the cap.
- Remove the cap, press the tip several times until it has soaked in the paint.
- Apply on the affected part.
- Re-cap after use.
- The activation should not be done on the substrate you wish to be retouched to prevent excessive leakage of colour (colour may make stains on the surface).
- We recommend not to keep the tip pressed during use.
- The paint has a high coverage, you can write on all kinds of dark surfaces.

Order information

Disclaimer of liability

This application-technological information is given to the best of our knowledge. The notes mentioned herein are, however, non-binding and do not exempt you from own tests to see whether the products supplied by us are suitable for your special application. The use and processing is beyond our control and therefore exclusively in the responsibility of the user. European Aerosols is let off the liability, unless the liability-based incident is caused by a fault incurred to European Aerosols.

As of April 11, 2018

This release replaces all eventually earlier issued versions.
