- **Storage stability:**
10 years if appropriate storage provided (=10°-25°C, relative air humidity of max. 60%).
- **Size:**
aerosol can, maximum nominal volume 600 ml

Environment and labelling

Environmentally sound: European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal: Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling: All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EEG in the actually valid version.

Instruction manual

Before use, carefully read and observe the warning texts on the label!

Application:

- Bring the spray can to room temperature / Operational temperature 55 to 30°C.
- Shake before use.
- The surface should be clean and dry.
- Apply Rubber- & Plastic-Conditioner in a thin, equal layer and polish with a soft cloth.
